The Honorable Tom Cole
Chairman
Subcommittee on Labor, Health and Human
Services and Education
2467 Rayburn House Office Building
Washington, DC 20515

The Honorable Rosa DeLauro
Ranking Member
Subcommittee on Labor, Health and Human
Services and Education
2413 Rayburn House Office Building
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro:

The 88 undersigned organizations write in support of robust funding for the Statewide Family Engagement Centers (SFECs) grant program and respectfully request no less than its authorized level of \$10 million—in the FY 2018 Labor, Health and Human Services, Education and Related Agencies (L-HHS-ED) appropriations bill. A bipartisan group of [46 Representatives](#) have shown their support for SFECs by signing on to a Dear Colleague letter to fund the program at its authorized level of \$10 million.

The Statewide Family Engagement Centers (SFECs) grant program is one of the few non-categorical programs from No Child Left Behind (NCLB) that was maintained in the Every Student Succeeds Act (ESSA). Both the House of Representatives and the Senate recognized the importance of parent and family engagement in education by including the SFECs program as a standalone program in their respective reauthorization bills. Known as the Parental Information and Resource Centers (PIRCs) under NCLB, the improved SFECs program will build capacity for states and school districts to systematically embed family engagement policies and practices in their education plans. The SFEC program will provide much needed professional development for educators and school leaders to strengthen school-family partnerships and parent-teacher relationships. Additionally, SFECs will provide direct services to families to give them the tools to effectively work with their child's school to improve their child's academic outcomes and overall well-being.

With ESSA implementation underway, states, school districts, school leaders and parents need the SFEC program to effectively engage parents as stakeholders and successfully implement the law as Congress intended. Research shows that family engagement advances the academic and developmental progress of our nation's children and drives increases in student achievement. Our organizations believe that an investment in SFECs is critical to ensuring that families are meaningfully supported and engaged in their child's education so they can support our nation's students in becoming fully prepared for higher education, workforce and career opportunities in the 21st century.

Thank you for your consideration of our request and we look forward to working with you to ensure this important program receives funding in FY 2018.

Sincerely,
